To the Editor of the Milwaukee Sen-

Sm: -1 have read a good many stories of late concerning the confinement of sane persons in lunatic asylums, and I am thoreby prompted to relate a bit of personal

In the year 1855, while I was serving the Methodist Episcopal church in a New England town, a neighbor's house took In common with others, I stood on the edge of the roof, passing buckets of water, exposed to intense heat on one side and freezing winds on the other. I took a fearful cold. For twenty-five years it worked havor in my physical and mental Nevertheless, I continued in my ministerial duties. I preached many a sermon when suffering intense agony. At certain periods, however, I would be comparatively well, and then again, my head would get heavy, my breathing labored, my appetite fickle. I would lose interest in life; feel sleepy at mid-day, and wakeful at night. My heart occasionally gave me great concern. Not knowing to the contrary, I attributed this ill feeling to malaris. But eventually mental strength faded away, and I was utterly prostrated. I was canterized, cupped, blistered, and treated by many physicians in many different ways.

My case was a puzzle as much to my physicians as to myself. For one of them at first prescribed for delirium tremons, and yet I never had tasted intoxicating Honors. Another said I had brain disease. another spinal difficulty, another nervous prostration, heart disease, etc.

My mind eventually gave way, and in 1882 I was confined in the Brattleboro, Vt., Insane Asylum for six months. When i knew where I was, I demanded instant clease. I then made a visit to Oceanic, N. J., but I had reckoned too much on my strength. I again lost my reason for a considerable period.

That I was in a desperate condition is evident. My blood had become infected with virus, which inflained my brain occasionally and doomed me to an early death, for no physician gave me any hope of a cure. I finally found out what my real disorder was, and undertook my own treatment: In a few months I was restored to such a state of health as I never expected to enjoy. That was over three years ago, and my physical and mental health have remanued intact to this day.

Last March I came west, and engaged in garden farming. In all that time I have not lost a day's work; have apparently enjoyed the most vigorous health and I expect to live the full term of life. The remedy I used was Warner's safe cure, and if I should live a thousand years never tire of telling its praises.

will confess with me, Mr. Editor, that such a change is remarkable. And you will, also, I am sure, agree with me, when I say that whatever created such a mental and physical restoration is deserving the highest praise.

Very truly yours. REV. E. D. HOPKINS. Dodge's Corners, Wis.

There are undoubtedly thousands who have an experience similar to the above, to whom Mr. Hopkins's recital will appeal with persunsive force.

Fuel on Russian Railways .- An official report, upon the fuel used on Russian railways has been prepared by General Possict, the Minister of Ways and Communications. It appears from this report, which is concerned with the year 1881, that of the forty-nine railway companies existing in the empire, only four used wood exclusively for their locomotives. The lines were all short ones, running through forest tracts abundantly supplied with wood and far away from coal supplies. The bulk of the lines used coal, and during the year the aggregate consumption of all the railways was 563,029 cubic Russian fathoms of wood and upward of 1,280,-000 tons of coal. The quality of English coal used was only 150,450 tons, most of which was burnt on the Baltic and on the southwestern lines. The report notices a general tendency toward a larger consumption of Russian and a dimin-shed one for foreign coal. The increase in the use of Russian coal is given at 70,000 tons, or 8 per cent, within the year Only 30,000 tons of German coal were burned, and these were used on lines near the German border. Since the report was drawn up there has been a considerable enlargement in the supply to the railways of the Donetz and Moscow and, and the use of petroleum as an ougine fuel has become almost general on the lines near Caucasus, The Russian import duties on foreign coal were increased not long ago.

Among the many wonderful things exhibited at the World's Exposition at New Orleans will be an "electro mechanical signalling apparatus," which give promise of making railway travel in future a trifle safer than staying at home. This wonderful contrivance not only gives warning of such ordinary dangers as the approach of "wild" trains, obstacles upon the track, or breken bridges or treates, but if the draw of a bridge is ever so little out of place it rings a bell in the ongine cab, and another at the house or post of the bridge keeper. If a trestle or enivert is out of line in any direction so as to create a danger, or if a tunnel wail sags in a threatoning way, a faithful little hand points out the danger upon a dial, and the bell in the cab rings sharply, waking the engineer if asleep, and calling his attention to the signal.

There is not a single cat within the limits of the town of Leadville, Colorado, Cats have been imported there by the kundreds, and in all varieties of color and size, but not one has ever survived the second week of residence. However as there are no rate and mice in Leadville, there is no real need of cats, and it makes no difference whether they live or die. The thin atmosphere at that altitude (10,200) is fatal to the ver-min as to their fee, and the inhabitants are thus mercifully spared the inflictions

Excusu millers are fluding it more profitable to buy American flour at the West, and ship it through directly to Great Britain, than to purchase wheat at New York and send it abroad to

## DOMESTIC

HANGING THE MISILETON -A larg bunch of mistletoe must be hung up in the parlor so that under its charmed green cunning youths may have an op-portunity to kiss unsuspecting maidens. To be in keeping with old custom, the mistletoe must be fastened to a wheel suspended from the ceiling. The wheel looks well hung by garlands of helly leaves sewed to dark colored tape, or if there is a chandelier in the room it may be hung from and directly beneath it. Garlands and festoons of green are arranged around the walls of the room in any way which the taste of the worker suggests, but sameness should be avoided as much as possible. The wheel and mistletoe should be used only in one place, and the wheel should not appear in any place except the parlor and the hall window. All kinds of green should be used to always an always are green should be used in abundance, but nothing should be employed for color save natural berries, home-made berries and the shields and banners, except that a few burches of bright ribbons are allowable. Artificial flowers should not be used, and even fresh blossoms from the green-house are delegated to the flower-bowls on the tables-

THE woman who gots through ber work quickly and easily, is not the one who leaves every thing at sixes and sevens. She has a place for everything and everything in its place, even to the nutmeg grater and stove lifter. She never considers she is through her work until every article used is in its own particular niche. She has a bag for clothes pins, and a nail somewhere out of sight on which to hang her kitchen apron; she can go in the dark est night and lay her hand on the catmint bag when Jonunie has the stomich ache, and not be in the condition of a near neighbor of mine who sont her little girl in to borrow a nutmeg, she said "Ma had one somewheres, but ouldn't find it.

CAMEO GLASS bottles are of English make, with opaque surface of citron, pomegranate or amber glass, on which are incised white ornaments, the lotus and leaves, figures or other device stand out in relief in the precise tones of white onyx cameo cutting. The bottles intended for perfume are of Pompeiian and Egyptian shapes, ending in a point, so that they must always lie flat. Flasks for pocket use or tiny vials for smelling salts are round or ob-The colors of the ground work in these bottles are those of gems, and are superb in the deep shades they hold imprisoned under their ornaments.

GIBLET Sour .- The giblets from two or three chickens or two turkeys; one medium sized onion, one small carrot, half a large turnip, two stalks of celery, two quarts of water, one of strong stock of any kind, two large tablespoonfuls of butter, two of flour, little salt and popper to taste; one or two leaves of parsley and a leaf of sage. Put chopped giblets on in two quarts of water, boil to one quart: now add the stock. Out vegetables small, fry in the butter until tender (about fifteen minutes), then stir in the flour until it browns Turn into the soup and season; cook fried bread.

SAUGE HOLLANDAISE OR DUTCH SAUCE. -Pour four tablespoonfuls of good vinegar into a small stew pan, add a little pepper and salt; let it boil to half the quantity sed cool; add well beaten yolks of four eggs, butter the size of an egg and a little nutmeg. Set over a slow fire; stir until thick as cream and omove it immediately; set into another can containing hot water at the side of the range. Beat briskly with a spoon or whisk to make it frothy, adding lit-tic bits of butter all together about the size of half an egg. When light and smooth it is ready to serve.

IF THE value of buttermilk were betfer known it would be more used and less wasted, says an exchange. It is a laxative and aperient, invigorates the storageh, liver and kidneys, and is nu-tritious to the sytem. Thousands or persons are suffering to day with sepsis in the blood, from which proceed nervous headaches, weak diaphragms, costiveness and even rheumatism and ague, who would be be relieved in a very short time if they would drop their pork and stimulating diet and use only buttermilk, fruits and vegetables.

Sweetburads, -- Veal are the best. Soak in cold water an hour; lard them by drawing thin pieces of salt pork through them; put them into salted water and boil twenty minutes, remove-and throw into cold water to blanch them. Remove carefully any skin or gristle and they are ready to be cooked again with a cream sauce or with peas. French peas or canned peas seasoned with butter, pepper and salt and poured around the sweetbreads.

CORN BREAD IN CUPA .-- Two and one half cups of indian meal, one cup of flour, three tablespoonfuls of cornstarch, three tablespoonfuls shortening, three eggs, one teaspoonful of soda, and three and a half cups of thick sour milk; add salt at discretion. It should make a thin batter. Bake quickly in small tins or oups. It is best to soak the meal all night, or at least soveral hours in the sour milk, adding the other ingredients before baking.

When reasting lamb or fewls, if you do not like the flavor given by thin slices of sult pork or of bacon, which are goverally put over them, take some hard butter, roll it in flour, and soparate it into small lumps and lay hore and there on the meat. This will give richness and flavor to the liquid with which you baste them,

HERE is a new way to make a rice pudding, Wash a small teacupful of rice in cold water; then put it into a quart of cold milk; add salt and sugar and vanilla to your taste, and a small lump of butter. Put this into the oven two hours before it is to be eaten; stir it occasionally. Follow these directions carefully, however skeptical you may be, and you will be pleased with

The best heads can but misjudge in causes belonging to the jurisdiction of the heart.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East, India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption Bronchitis, Catarril, Ashima and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Norvous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt this duty to make it known to like suffering fellows. Actuated by this motive and a desire to relieve human suffering. I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mall by addressing with stamp, naming this paper, W. A. Noyes 148 Pomer's Block, Rootovster, N. Y.

HIS WIFE WAS TOO BUSY,-"Look here," said a judge to a juryman. "I do not desire to wound your feelings, but why don't you put on a clean shi p

"Because my wife has been very busy for several days, and I have had no one to sew on buttons."

"Hasn't your wife had time to aew on a button?"
"No, sir."

"What's the matter-children sick?" "No, sir; children somewhat dirty, but in good health."

"What is your wife doing that keeps her so constantly employed?"
"Well, you see, several days ago our minister came around, and said that by such a time he had got to have two hundred pair of breeches to send to the heathens, and my wife has been busy over since. Just wait, Judge, till she gets through, and then I'll come around and dazzle this Court with the whitest shirt you ever saw."

"Tan, what are dictionaries for?" asked young Johnnie Jarphly.
"To teach people how to spell correctly, my son," replied Ar. Jarphly, gratified to see his little boy's mind take an active interest in learning.

"Can you spell, Pah?"
"Passably well; of course, I am not perfect." answered Mr. Jarphly with

omplacent modesty.

Bat you can look in the dictionary and find out can't you!" persisted the youthful searcher after knowledge."

"Oh, yes, certrinly."
"Then, when you told Mah you were going to run this establishment and she said you'd better learn to spell 'able' first why didn't you look in the dictionary and Ouch! I've got a boil

"Well, you are mistaken. That old motor you have been fooling with has not gone, and I'll bet it won't go either

in a thousand years." Mr. Keely wished he had his wife's

philosophy.

THE other night two men who supported a third between them, shuffled up to the front steps of a house on Howard street and rang the bell. Al-though the hour was late it was not a minute before the door was opened by a woman who asked what was wanted.

"We have brought your husband home, and he's ho's a little tired," replied one of the men.

"Yesh, so tired!" sighed the wobblelegged man in the middle. "Gentleman," calmly announced the woman, "you have made a mistake. My husband arrived half an hour ago,

but so drunk that he was brought in a wagon. You can't palm no such half-drunk as this off on me!" She shut the door on their toes, and

he party shuffed down the steps to try

Is it Roally Consumption?

Many a case supposed to be radical lung disease is really one of liver complaint and indigestion, but, unless that diseased liver can be restored to healthy action, it will so can be restored to healthy action, it will so cley the lungs with corrupting matter as to bring on their speedy decay, and then indeed we have consumption, which is scrotula of the lungs, in its worst form. Nothing can be more happity calculated to nip this danger in the bud than is Dr. Pierce's "Golden Medical Discovery." By drug-
